ABOUT THE ANONYMOUS DEVELOPERS TEAM

The Team is from three Countries Estonia, Latvia and India.

For more than 10 Years into development of projects for clients the developers had multiple requests from the globe for development of Decentralized Finance working on Peer to Peer and Multi Level Marketing Models from last year.

So the team designed this unique plan and deployed it for Direct Selling and Crypto Community to have full transparency on public investment distribution with proper 100% decentralized coding.

The Plan was designed by Mr. N from Estonia, UI was given Mr. V from Latvia and final our friend from India Mr. D gave us the algorithm for running the Golden Rule of Four for earning the double of Investment on every Auto Pool Completion.

We as a team want this system to run permanently without anyone to control it and help each other to make a handsome living.

Rule is simple You Join and Refer Your Four Friends and Get your Auto pool Double of Investment As soon as completed by claiming it from Dashboard instantly into your wallet connected to the Smart Contract without anyone needed to pay you. Your Funds are Yours and You can have it as soon as you claim it from the contract.
